PROJECTS

Customer Relationship Management (CRM) Dashboard

React.js / Tailwind CSS / JavaScript / GitHub

- Improved administrator task efficiency by approximately 35% by architecting a responsive React dashboard with modular reusable components.
- Reduced average page load time by approximately 40% through optimized React rendering and API-integrated state management.
- Led a 3-person GitHub workflow using feature branching, pull requests, and weekly meetings.

E-Commerce Website Frontend

React.js / Tailwind CSS / Responsive Design / Vercel

- Built a fully responsive frontend supporting multiple screen breakpoints.
- Developed reusable React components including product cards, navigation bars, and filter drawers.
- Integrated deployment with Vercel and GitHub for continuous deployment.

User Registration & Authentication UI

HTML5 / CSS3 / JavaScript / DOM Manipulation

- Implemented real-time form validation reducing form submission errors.
- Applied semantic HTML, ARIA labels, and keyboard accessibility.
- Developed reusable input components for future projects.
